

# Sustainability and Affordability with No Compromises

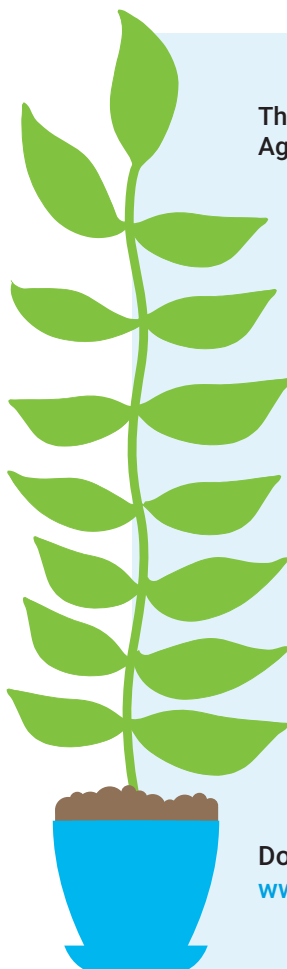

Agilent Certified Pre-Owned Instruments

## Reduce waste and get like-new performance

Sustainability is an integral part of how we conduct business. In fact, Agilent has been ranked as one of the **top 20 most sustainable companies for the fifth straight year** by Barron's, based on factors that include water use, waste generation, and greenhouse-gas emissions.

Agilent Certified Pre-Owned Instruments are one of the many ways Agilent provides sustainability and recycling options to customers. Even better, you can expect our pre-owned instruments to perform like new—because they do.

### The trusted and sustainable alternative for your lab: Agilent Certified Pre-Owned Instruments

Support green initiatives by giving renewed life to existing equipment

Include professional installation and training by Agilent-certified service experts

Offer the widest instrument portfolio available today

Guarantee performance to the same specifications as a new instrument

Are backed by the same 12-month warranty as a new instrument

Replace all wearable components with only genuine Agilent parts

Ship with all new accessories, consumables, and software

## What kind of instruments can I choose from?

With Agilent Certified Pre-Owned Instruments, you get more than the best quality. You also get the best selection. To see which instruments are available, use these links.

Liquid chromatography

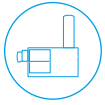

ICP-MS

Gas chromatography

Atomic spectroscopy

LC/MS

Molecular spectroscopy

GC/MS

Cell analysis and electrophoresis

### Another sustainable way to acquire the latest technologies

Agilent Trade-In and Buyback Program gives you cash or credit for your older instruments, so you can obtain the systems and software you need for long-term business success. What's more, this program kept more than 800 systems out of landfills in 2021 alone.
