

Picus[®] 2 Electronic Pipette

The Next Generation of Pipetting

Picus[®] 2 Electronic Pipette

- Reliable performance and reproducible results
- Easily accessible pipetting modes and customizable programs speed up repetitive work
- Lightweight and ergonomic design reduces muscle strain and provides comfortable pipetting
- Sartorius pipetting mobile app provides configurable protocols and pipette management
- Open connectivity feature provides integration of Picus[®] 2 pipette into existing lab operating systems
- Service and calibration reminders
- Password protection and distinct administration user profiles protect against unauthorized modifications
- Calibration adjustment to provide accurate results even with the most challenging liquid
- Easy to clean and decontaminate; lower parts of the pipette can be decontaminated by autoclaving (excluding 1,200 µL multichannel models), with UV, or with disinfectants
- Battery typically lasts a full working day and can be fully recharged in an hour

Sartorius Pipetting App:

- Sample preparation workflows and pipette management
- Step-by-step workflow guidance and automatic selection of correct settings for Picus[®] 2
- Pipette updates
- Ever-growing database of configurable protocols
- History of workflow run logs
